# VOLUNTEER CONNECTION

## Your Direct Link to the Red Cross

The American Red Cross will soon launch Volunteer Connection, our new volunteer management system. Volunteer Connection will transform the way you are connected to the Red Cross.

Volunteer Connection is launching in waves. By February 2013, it will be operating in all chapters and Service to the Armed Forces stations, and volunteers will be deployed in response to disaster relief operations through Volunteer Connection.

### With Volunteer Connection, you can:

#### Manage Your Involvement

- Learn about and apply for volunteer opportunities that are available when you are
- Schedule your shifts
- View your calendar of shifts and scheduled events

#### Build Your Red Cross Record

- Administer your own member profile
- Record your volunteer hours
- Register for chapter events and disaster response shifts

#### Stay Informed

- Download important files and documents
- Learn more about your chapter and region
- Communicate with other volunteers working in similar positions

Volunteer Connection, made possible through the generous support of W.W. Grainger, Inc., will be good for the Red Cross, our volunteers and the communities we serve.

For more information, contact the volunteer resources department at your chapter or SAF station.
